INTERTERM BULLETIN

January 3-27, 1978

The Interterm at Mount St. Mary's College is designed to provide a unique educational experience for both students and faculty and make feasible a better use of off-campus facilities for enriching the students' education. During the month of January, students ordinarily concentrate on a single activity. Opportunities for interdepartmental work, for indepth study in one area, for research, for internships, for experience oriented courses, for independent study, for special projects designed by the student, and for travel will be available during the Interterm. Opportunities are also available for students to participate in Interterm experiences at other colleges on an exchange basis.

Full-time students at Mount St. Mary's participate in the Interterm Program as part of the academic year. Students are encouraged to "explore" interest areas both inside and outside of their major department on either the Chalon or the Doheny Campus. A maximum of two Interterm courses (during the four years) may be taken in any one department. Students should also note that a maximum of 6 non-required units in the area of Special Programs, ie. Y courses, may be counted towards a degree.

Enrollment in Interterm courses will be determined on a first come, first serve basis. However, any senior who enrolls in a class during the registration period may have first preference. Students will register for the Interterm during December.

Interterm courses may be taken on a grade basis (ie. A, B, C, D, F). Or, a student may, with the instructor's approval, opt to take a course on a "credit/no-credit" basis rather than for a letter grade, provided the course is not taken for a general studies requirement. The student should make her preference known to the instructor at the beginning of the term.

All courses taken during the Interterm period should be completed by the end of January. Incompletes may given only in extraordinary circumstances. While the ordinary class load is 3 units, a student may take a maximum of 4 units during a given Interterm.

Interterm offerings are listed on the following pages under the headings of Humanities, Social Science, Natural Science, Religious Studies, Philosophy, Professional Preparation, and Other. Courses which may be taken to fulfill general studies requirements are listed at the end of this booklet. All courses are offered for three units of credit unless otherwise specified. Thus, the students should plan on devoting her full time (30-40 hrs./week) to the experience she chooses to pursue.

A student who wishes to undertake an independent study during the 1978 Interterm, will be required to submit an outline of her purpose, tentative bibliography, procedure, and target dates to the faculty member who has agreed to direct her study. This proposal must be approved by the faculty member and sent to the Dean by November 18, 1977.

Tuition and residence fees for full time students are determined for the academic year. Tuition for a part time student will be \$80 per unit unless the student is on an exchange agreement from another 4-1-4 college. Room and board for a part time student living on campus during the month of January will be \$170.

Meeting time for some classes are specified. Other classes will meet in the assigned places (to be posted) on the Chalon or Doheny Campus at 9 A.M. on January 3, 1978 and hours/places of future meetings will be determined at that time. In the case of courses involving travel, the student should contact the faculty sponsor and inquire as to the time and place of the first meeting.

It is our hope that you will enjoy an innovative and enriching experience during the 1978 Interterm at Mount St. Mary's College.
